## Cybersecurity Expert (m/f)

### Context

For upcoming missions, itrust consulting would like to hire an enthusiastic specialist in Cyber Security in order to strengthen its team, working in direct contact with its customers.

### Key Responsibilities

- Execute remote and on-site penetration tests, web application vulnerability assessment, code review, incident handling, malware analysis, and vulnerability assessment;
- Integration into a team of Penetration testers and malware analysts;
- Maintain and develop 'Malware.lu CERT' and follow-up Cyber Security incidents;
- Support research and innovations activities and supervise PhD students - doctorate related to cybersecurity and intrusion detection;
- Create, revise and edit publications related to cybersecurity.

### Profile of the candidate

- Master's degree in a subject directly linked to the field of information security;
- SANS certification considered as a plus, e.g. GCIH (SEC504), GCIA (SEC503), CSIH or equivalent;
- Ready to start the EU security clearance process;
- Strong knowledge in security related tools and methods, e.g. ArcSight, IDA, SPLUNK, OWASP;
- Capability to work independently and within teams;
- Experience in malware analysis, reverse engineering and handling of security incidents;
- Ideally 6 years' practice in technical audit of IT security, incl. working directly with customers;
- Fluency in English, (Luxembourgish, French and German are considered as an advantage);
- Practical experience in the development of tools (scripts or exploits) when needed (e.g. PHP, python);
- Analytical and synthesis skills for writing technically correct, convincing and easy-to-understand reports;
- Knowledge of ISO/IEC 27001, 27002, and information systems is considered as an asset.

**Thank you for sending your most recently obtained diploma and ratings for the last two academic years, your updated CV, a letter of motivation and two articles, written by you (PDF) to Ms Marieta Dimitrova.**
