ICT administrator and developer (m/f)

itrust consulting is a leading actor in the information security domain in Luxembourg, specialized in providing security services such as consultancy, technical and organizational audits, technical expertise, research and development and best practices-based security training in a dedicated training centre.

Context

itrust consulting has an opening for a motivated candidate, specialized in ICT Unix-like (*nix) System Administration and experienced in the execution of development projects, to manage the ICT environment of itrust consulting for customers and to participate in development projects.

Your role and tasks

- Support the ICT Manager and CIO in the efficient management of the ICT infrastructure;
- Apply and improve the ICT strategy (e.g., increase of efficiency, profiles, centralized solutions);
- Provide internal user support and assist the users of our customers;
- Ensure inventory and capacity management;
- Detect, document and resolve internal and external security incidents as part of the ICT team;
- Maintain and further develop TRICK service, the Risk Management web solution and assist users;
- Execute development tasks related to the ICT environment and/or support development projects in the Research, Development and Innovation department.

Profile of the candidate

- MSc in Computer Science or in a subject directly linked to ICT;
- Professional experience in *nix system administration, ideally in Linux-based environments;
- Proven development experience, e.g. in Java, C++, Rust, Java script, Python, NodeJS, PHP, SQL or scripting in general;
- Expertise in security engineering, information security mgt. and ITIL are considered an advantage;
- Pro activity and capability to work independently and within teams;
- Fluent written and verbal communication skills in French and English (Luxembourgish and German would be an advantage);
- Analytical and synthesis skills for writing technically correct, convincing, and easy-to-understand reports;
- Excellent knowledge of Microsoft Office tools, namely Word, Excel and PowerPoint.

What we offer you at itrust consulting

- An international environment and the opportunity to collaborate within a like-minded ICT team;
- An IT ecosystem convenient for teleworking and flexible working hours;
- Competitive working conditions and stimulating learning environment;
- Training and on-the-job-learning opportunities in autonomous work for customers under the supervision of experts of itrust consulting.

To apply, please send (in PDF format) your most recently obtained diploma and ratings for the last two academic years, an updated CV and a letter of motivation to Marianne Guérin, info@itrust.lu.
