Project Manager for R&D, ISMS, and ICT projects

itrust consulting is a leading actor in the information security domain in Luxembourg, specialized in providing security services like consultancy, technical and organizational audits, technical expertise, research and development and best practices-based security training in dedicated training centre. We manage R&D projects, such as the conception and implementation of an Intrusion Detection System and assist our customers to become ISO 27001-certified or to reorganize and document ICT (e.g. to include Privacy by design, Security by design).

Context

itrust consulting has an opening for a motivated candidate, specialized in Project Management, to manage internal projects related to R&D, Scrum-based Development, and ISMS implementation.

Your role and tasks

- Act as internal or external project manager;
- Coach small teams of persons;
- Organize, lead, and report project progress meeting and other project lifecycle documents;
- Perform user tests on products and quality review on documents;
- Teach project participants to use and apply project life cycle templates.

Profile of the candidate

- MSc in a subject directly linked to the field of information technology;
- Expert knowledge and practice in project management;
- Capability to work independently and within teams;
- Knowledge of project methods, ideally Quapital/Hermes and of methods such as Scrum/Agile;
- Experienced in general management, such as risk, quality, or security management;
- Fluent written and verbal communication skills in English and French (Luxembourgish and German would be an advantage);
- Analytical and synthesis skills for writing technically correct, convincing, and easy -to-understand reports;
- Excellent knowledge of Microsoft Office tools Word, Excel, PowerPoint.

What we offer you at itrust consulting

- An international environment and the opportunity to collaborate with like-minded researchers and consultants;
- The right place in Luxembourg for impactful work in information security and increasing the project management (and security) skills of our customers;
- An IT environment convenient for teleworking and flexible working hours;
- Competitive working conditions and stimulating learning environment;
- Training and on-the-job-learning opportunities in autonomous work for customers under the supervision of experts of itrust consulting.

To apply, please send (in PDF format) your most recently obtained diploma and ratings for the last two academic years, an updated CV and a letter of motivation to Marianne Guérin, info@itrust.lu
