Senior Data Privacy Consultant

itrust consulting is a leading actor in the information security domain in Luxembourg, specialized in providing security services such as consultancy, technical and organizational audits, technical expertise, research and development and best practices-based security training in a dedicated training centre.

We are looking for motivated candidates specialized in Data Protection, e.g. certified Data Protection Officer (DPO), enthusiastic to support our customers (public and private sector). As part of our consultancy team you will ensure knowledge transfer (changes of standards and provide technical expertise in related fields) and continuous improvement of our security documentation.

If this sounds familiar to you and you would like to learn more, get in touch with us.

Context

itrust consulting has an opening for an experienced data privacy consultant to enhance the existing consultancy team and to complement the current specialization in the context of information security and data privacy.

Your role and tasks

- Acting as internal DPO and for customers (or assisting the DPO with expertise);
- Monitoring GDPR compliance, conducting and documenting DPIAs;
- Creating and maintaining Privacy Information Management System (PIMS) documentation;
- Executing Data Protection audits covering PIMS, or ISMS and BCMS is considered an asset;
- Coaching internal and external management teams regarding Data Protection;
- Serving as expert in information security related topics, e.g. Data Privacy, Risk-, Business Continuity-, and/or Incident Management.

Profile of the candidate

- MSc in a subject linked to information security, law or an MBA in Computer Science;
- Convincing understanding of data protection law and regulatory requirements;
- Familiarity with the work of the EDPB;
- Excellent communication skills to work with an organization's staff and management (internal/external), as well as with supervisory authority;
- Min. three years' experience in Data Privacy management, proficient in interacting with customers, and certified DPO Foundation and DPO Practitioner;
- Confidence with ISO IEC families, e.g. 27701, GDPR and related legislation considered a plus;

- Advanced project management and documentation skills, e.g. familiarity with MS Office tools;
- Analytical and synthesis skills for technically correct, convincing, and easy-to-understand write-ups;
- Fluent written and verbal communication skills in English and French (Luxembourgish or German considered an advantage);
- Capability to work independently and within a team.

What we offer you at itrust consulting

- Competitive working conditions and stimulating learning environment;
- An international environment and the opportunity to collaborate with like-minded security engineers and experienced consultants;
- The right place in Luxembourg for impactful work in information security and securing the infrastructure.

To apply, please send (in PDF format) your most recently obtained diploma and ratings for the last two academic years, an updated CV and a letter of motivation to Marianne Guérin, info@itrust.lu.
