Senior Information Security Consultant

itrust consulting is a leading actor in information security in Luxembourg, specialized in providing security services such as consultancy, technical and organizational audits, technical expertise, research and development and best practices-based security training in a dedicated training centre.

We are looking for motivated candidates specialized in information security, eager to support our customers (public and private sector). As part of our consultancy team you will ensure knowledge transfer (changes of standards and provide technical expertise in related fields) and continuous improvement of our security documentation.

If this sounds familiar to you and you would like to learn more, get in touch with us.

Context

itrust consulting has openings for experienced information security consultants to enhance the existing consultancy team and to complement the current specialization in the context of information security.

Your role and tasks

- Acting **onsite** as CISO for customers (or assisting the CISO full time with expertise);
- Coaching internal and external ISMS (Information Security Management System) teams;
- Carrying out risk analysis (information security, GDPR, business continuity, etc.) using tools;
- Executing organizational security audits, covering ISMS, PIMS or BCMS is considered an asset;
- Creating and maintaining ISMS documentation;
- Serving as expert in information security related topics, e.g. Data Privacy, Risk-, Business Continuity-, and/or Incident Management;
- Providing (internal or external) security training.

Profile of the candidate

- MSc or MBA in Computer Science, in a subject directly linked to information security or related fields;
- Proven practical experience in risk assessment (Circulaire CSSF, MONARC, TRICK Service, ...);
- Confidence with ISO IEC families 27xxx and 223xx, GDPR and related legislation considered a plus;
- Min. 3 years' experience in security management and proficient in interacting with customers;
- Strong project management and documentation skills, e.g. familiarity with MS Office tools;
- Analytical and synthesis skills for technically correct, convincing, and easy-to-understand write-ups;
- Certification (lead auditor or lead implementer, or CISSP);
- Fluent written and verbal communication skills in English and French (Luxembourgish or German considered an advantage);
- Capability to work independently and within a team.

What we offer you at itrust consulting

- Competitive working conditions and stimulating learning environment;
- An international environment and the opportunity to collaborate with like-minded security engineers and experienced consultants;
- The right place in Luxembourg for impactful work in information security and securing the infrastructure.

To apply, please send (in PDF format) your most recently obtained diploma and ratings for the last two academic years, an updated CV and a letter of motivation to Ingo Senft, info@itrust.lu.
